Front-End Developer | Web App Specialist

As a passionate Front-End Developer, I specialize in creating **pixel-perfect, mobile-first** web pages and applications, leveraging cutting-edge technologies to build seamless user experiences. With a deep understanding of both **front-end** and **back-end development**, I am proficient in designing **high-performance, scalable** web apps using a combination of **MongoDB, Express, React.js, Next.js** and **Node.js**, among others.

Key Technologies & Tools

- Languages & Frameworks: **JavaScript (JS/TS), React.js, Next.js, Node.js, Express.js, Nest.js.**
- State Management: **Redux, Recoil.**
- Testing & Automation: **Jest, Cypress, Testing Library.**
- Databases: **MongoDB, Sequelize, PostgreSQL.**
- APIs & Architecture: **RESTful APIs, GraphQL, WebSocket.**
- Authentication: **JWT, OAuth2.**
- CSS Frameworks: **Tailwind CSS, Sass, CSS-in-JS.**
- Agile: **Kanban, Scrum.**
- Other Tools: **Storybook, Git, TypeORM.**

Experience

- **Software Engineer - Mid level - Front-end – FAASE** - 02/2024 until now. Responsible for developing, implementing and testing Front-End solutions, using technologies such as **Node.js, TypeScript, Next.js, React** and **TailwindCSS**, ensuring **high performance, scalability** and **responsive interfaces**.
- **Marine Corporal - Brazil's Navy** – 07/2017 until 02/2024. Militaries control, at the personnel division. Where I acquired excellent professional experiences, such as: **discipline, honor, competence, determination, professionalism, teamwork and leadership**. Dealing directly with **superiors** and **subordinates**. Also receiving the “Ao Mérito” certificate, **for excellent activity** and **modeling behavior**.

Education

- Faculdade de Informática e Administração Paulista - **FIAP** - Studying 3rd year of **Software Engineering** – Preview of conclusion (12/2026).

Language

- English – Advanced – **FISK** – (07/2017)
- Certificate of Achievement on the Michigan English Test - **University of Cambridge** and **University of Michigan** – 07/2017

Soft Skills

- | | | |
|------------------------|----------------------|----------------------------------|
| • Collaboration | • Flexibility | • Effective communication |
| • Adaptability | • Leadership | • Self-taught |

Complements

- Good practices in Node.js with TypeScript – Alura (01/2025).
- Nest.js: Efficient and scalable server-side Node.js applications – Alura (12/2024).
- Authentication, Testing, and Security in Node.js – Alura (11/2024)
- APIs with Node.js and Express – Alura (10/2024)
- UI Design for Developers – Alura (10/2024)
- Accessibility and Web Technologies: Techniques in HTML, CSS, and JavaScript for Inclusive Projects – Alura (09/2024)
- Figma – Alura (09/2024)
- Enhance Your React Application with Next.js – Alura (08/2024)
- Boost Your React Application and consume APIs – Alura (06/2024)
- Manage States in React with Redux – Alura (05/2024)
- Improve Your React Application with Automated Testing – Alura (05/2024)
- Manage React Applications with TypeScript – Alura (04/2024)
- Explore React with JavaScript – Alura (01/2024)
- Apply TypeScript in Front-End – Alura (12/2023)
- Develop Web Applications in JavaScript with Concurrent and Object-Oriented Tasks – Alura (12/2023)
- Vectors and Animation with SVG: Working with CSS and JavaScript – Alura (11/2023)
- Learn to Program in JavaScript with a Back-End Focus – Alura (10/2023)
- Enhance Your Development Experience with TypeScript – Alura (10/2023)
- Bootstrap 5: Developing Responsive and Attractive Websites – Alura (07/2023)
- CSS: Deepen Your Knowledge of Styles – Alura (07/2023)
- Develop Web Applications with JavaScript – Alura (06/2023)
- From Scratch: HTML and CSS for Web Projects – Alura (05/2023)
