Full Stack Software Engineer

Full Stack Software Engineer experienced in building web and mobile applications using React, Next.js, React Native, TypeScript, Node.js, and Python. Experience designing REST APIs, integrating third-party services, and developing AI-powered workflows with FastAPI, Google Gemini, and LangGraph. Strong focus on maintainable architecture, performance, and end-to-end delivery.

Background in the **Brazilian Navy**, where I developed **discipline, leadership, and operational efficiency under pressure**. I bring that mindset into software engineering, contributing not only with **code** but also with **structure, ownership, and continuous process improvement**.

PROFESSIONAL EXPERIENCE

Junior Software Engineer – FAASE 02/2024 – Present

Full Stack development of web and mobile applications, working across frontend, backend, APIs, integrations, and application architecture.

- Developed web applications using **React, Next.js, and TypeScript**, focusing on performance, SEO, and maintainability.
- Built mobile applications using **React Native and Expo**, integrating frontend applications with backend services.
- Designed and maintained **REST APIs** using **Node.js, Express, and NestJS**, applying modular and maintainable architectures.
- Developed asynchronous backend services with **Python and FastAPI**, integrating external services and application workflows.
- Integrated **Google Gemini and LangGraph** to implement multi-step LLM-powered workflows.
- Implemented integrations including **Firebase Auth, Shopify GraphQL, Playwright, and BeautifulSoup**.
- **Reduced feature delivery time by 30%** through reusable components and improved development processes.
- Structured communication between **mobile applications, backend APIs, AI services, and external platforms**.

Team Management & Operations – Brazilian Navy – 07/2017 – 02/2024

- Managed **personnel operations** and **administrative processes**.
- **Automated internal workflows**.
- Created **operational reports** for leadership.
- Improved team **efficiency** and **operational performance**.
- **Increased operational efficiency by 50%**.
- **Recognized for leadership, organization, and analytical skills**.

EDUCATION

- **B.Sc. in Software Engineering - FIAP**
Expected Graduation: Dec 2026.

TECHNICAL SKILLS

Front-End:

React, NextJS, React Native, TypeScript, TailwindCSS.

Back-End:

Node, Express, NestJS, Python, FastAPI.

APIs & Integrations:

REST, GraphQL, Shopify API, Firebase Auth.

AI & Automation:

Google Gemini, LangGraph, Playwright, BeautifulSoup.

Infrastructure:

Git, Docker, CI/CD, AWS.

Practices:

SEO, Web Performance, Componentization, Clean Code.

LANGUAGES:

English – Advanced

Certificate of Achievement – **Michigan English Test**.
